

ADC INTELLIGENCE — POWERED BY SPORTSTRADE

Building the Data Layer for the Athlete Economy

The first marketplace turning athlete performance, fan behaviour, and brand demand into a unified financial ecosystem.

"We are turning athletes into an investable asset class."

The Athlete Economy Is Broken

Athletes

- Less than 1% monetize before reaching elite level
- No structured digital identity — visibility depends on selection, not merit
- Uncertain career span with no financial upside from fan loyalty

Brands

- No data-driven discovery at grassroots level
- Poor ROI visibility in grassroots sponsorship spend
- Campaign decisions based on gut feel, not audience alignment

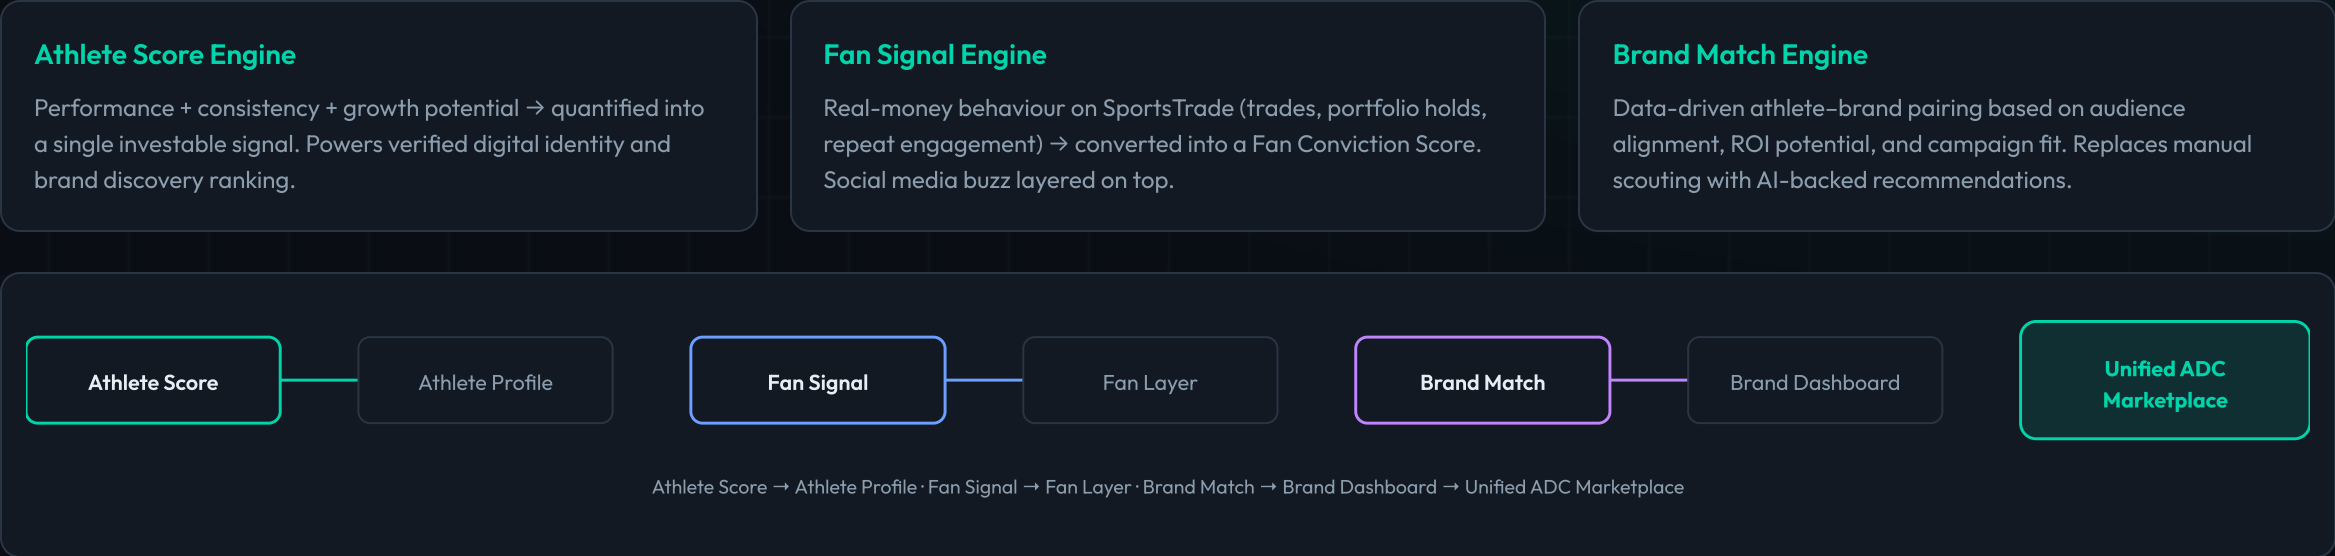

Fans

- Passive consumption only — watch, scroll, forget
- No ownership or long-term engagement with athlete growth
- No stake in the athletes they already support

India has 600M+ sports fans and 1.5M+ grassroots athletes — but no connective tissue between them.

ADC — Three Proprietary Engines, One Platform

Early Proof of Product–Market Fit

SportsTrade — our fan-economy layer — validated demand before marketplace scale.

₹40L+

Beta transaction volume

Real-money engagement, not vanity
signups

800+

Active users

IPL, Border–Gavaskar Trophy &
Champions Trophy

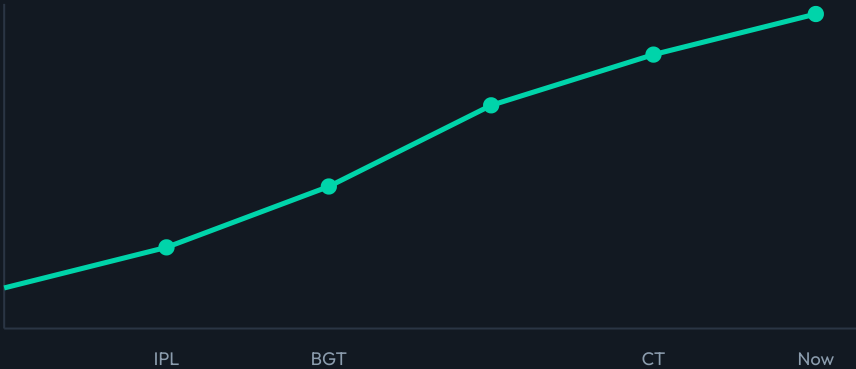

85+

Net Promoter Score

Strong repeat engagement and word-
of-mouth

Fans will pay to have skin in the game. ADC converts that signal into athlete value.

ADC + SportsTrade — What the Platform Surfaces

Athlete Profile

Verified digital identity · AI performance score · Growth potential rating · Discoverable by brands and fans

Fan Layer (SportsTrade)

Athlete investment portfolio · Loyalty rewards · Long-term stake in athlete growth · sportstrade.world

Brand Dashboard

Athlete discovery & shortlisting · ROI tracking on campaigns · Social signal & fan conviction data · Sponsorship workflow

One profile. One fan layer. One brand intelligence surface.

Massive, Untapped Athlete Economy

SEGMENT	SIZE	INSIGHT
Sports fans (India)	600M+	Mobile-first; seeking alternatives to fantasy-only engagement
Grassroots athletes	1.5M+	Largely unmonetized, undiscovered talent pool
India sports economy	\$10B+	Fast-growing; digital infrastructure still immature
Sponsorship market	\$2B+	Grassroots sponsorship structurally unserved

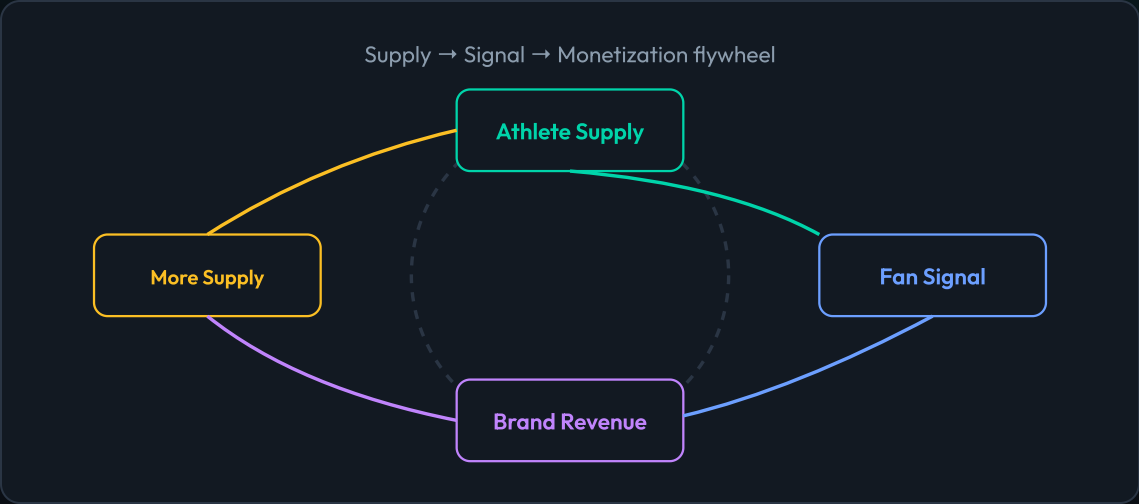

Entry wedge: Grassroots sports monetization — where brands spend blindly and athletes earn nothing.

Multi-Layer Revenue Engine

- 1. **Marketplace commission** — 10–20% on athlete–brand sponsorship deals
- 2. **SaaS subscriptions** — Brand & agency dashboards (discovery, analytics, fan intelligence)
- 3. **Future expansion** — Athlete data APIs, scouting intelligence, media & content monetization

PHASE	FOCUS	CHANNELS
1 — Supply	Athlete onboarding	Academies, colleges, federations
2 — Monetization	Brand revenue	D2C brands, startups, regional sponsors
3 — Fan layer	Engagement scale	Fantasy sports users, sports influencers

Defensible Athlete Data Network

CAPABILITY	KIBI SPORTS	INDIASPORTS	OPENDORSE (US)	ADC
