

ADC

BRAND OUTREACH UNIVERSE

2,000 brand & company prospects for Athlete Data Company (ADC)

Built for sponsorship, athlete endorsement, creator-led campaigns, fan engagement and data-driven athlete discovery. The first section prioritises brands visible in your reference image plus Indian sports-sponsorship and high-fit categories. The remaining universe broadens into sports, fitness, technology, wearables, wellness, beauty, apparel and mass-consumer brands.

Priority	Meaning	Recommended ADC motion
A	Highest fit / direct sports, wellness, youth, sponsorship or athlete relevance	Founder-led outreach; pilot proposal; athlete discovery + Brand Match Score
B	Strong adjacency / lifestyle, fashion, creator or consumer relevance	Category-specific campaign; emerging-athlete portfolio
C	Broader consumer prospect	Qualify marketing budget, geography and sports affinity before outreach

Important: This is a prospecting universe, not a claim that every company currently sponsors sport or is actively buying athlete endorsements. Brand status, decision-maker, current marketing budget and India market presence should be verified before outreach.

Suggested CRM fields to add next: Website | Country | India presence | Marketing Head/CMO | Sponsorship history | Estimated spend | Sport affinity | ADC Brand Match Score | Outreach status | Last contact | Next action.

Source note: the broad brand universe is seeded from a public 7,143-brand dataset (CC BY 4.0) and then re-ordered for ADC relevance. High-priority Indian/sports prospects and brands from the supplied reference image were added manually. Categories are broad outreach classifications and should be refined during CRM enrichment.
